## ◦ SKILLS ◦

Front End

React - Typescript - Javascript -  
Redux - RTK - HTML - JSX - SCSS  
- CSS - Storybook - Elastic UI -  
MaterialUI - Bootstrap - Tailwind  
CSS

Back End

Node - Express - Mongoose -  
MongoDB - Socket.io | Web sockets  
- Studio3T - Docker Containers

Version Control - Git

Jest Testing Library

Agile & SCRUM methodologies

## EMPLOYMENT HISTORY

### Full-Stack Software Developer at Expression, Washington, D.C.

March 2022 — Present

- Developed UI components in Typescript for React front-end applications to specification of design team using tools like Figma and Storybook to create a mock-up to be approved before integration.
- Built custom components in React with scss in addition to utilizing Elastic UI's component library for front-end ensuring app-wide consistency and make suggestions to design to improve user experience
- Developed and aided in architecture of feature that tracked job progress across multiple services via Redis queues and web sockets
- Create/maintain micro-services in Node.js/Express with role-based access control using Keycloak that are connected to a MongoDB instance.
- Developed and maintained unit-tests and improved unit-test coverage of existing code using Jest to achieve maximum test coverage
- Overhauled legacy api to be consistent modern micro-service architecture
- Aided in testing sessions finding and correcting bugs
- Testing endpoints and troubleshooting api calls with Insomnia api client
- Managed workflow with the use of JIRA tickets and participating in AGILE ceremonies

### Software Engineer at World Print, Los Angeles

October 2021 — March 2022

- Designed and built UI components with material-ui and bootstrap in React (javascript)
- Managed api calls with ajax and built backend CRUD application in C# in the .Net framework
- Built a user location page that aided users in selecting or editing their home address/place the product should be shipped to
- Version control managed with git

## EDUCATION

### Software Development Engineering, Blue Ridge Community and Technical College, Martinsburg

August 2023 — Present

Pursuing further education to transfer and achieve a B.S. in Computer Science

## Clearance

DoD Secret Clearance
